## Process Plant Equipment Reliability

IndustryUptime Offers the Following Products for Maintenance and Reliability

PROGNOST Systems GmbH is the No.1 partner for companies who want to ensure safe, reliable, and economic operation of their reciprocating piston compressors. PROGNOST Systems offer the only system in the industry that records and analyzes status data in real time and compares them using "pattern recognition" based on actual experience. It provides machine operators with a timely analysis of the causes in the form of plain text information. This means that any reciprocating piston machine monitored by this system can be shut down fast and reliably with virtually no risk of false trips.

Thordon Bearings designs and manufactures the most complete line of oil and grease-free water and product-lubricated vertical pump bearings in the industry. High reliability and cost-effective with excellent wear life and low operating friction, Thordon has been servicing the industry for over 30 years.

#### Specialty Lubricants Products

Bel-Ray has been a leader in the specialty lubricants industry for 70 years and remains in the forefront, relentlessly reinventing and reformulating their products by harnessing the finest materials and technology available. Bel-Ray's engineering standards ensure tenacious industry-leading food grade line, reducing contamination, allowing your plant to run smoothly and efficiently.

#### Synthetic Oils and Greases

Royal Purple® produces an extensive line of industrial lubricants for nearly all applications. These state-of-the-art lubricants are formulated to deliver superior lubrication performance, resulting in lower operating temperatures, improved equipment reliability, and increased efficiency. Once the lubricant housing is fully protected, it only makes sense to use superior lubrication products. More information about Royal Purple®, their products, and case histories are available at [www.royalpurple.com](http://www.royalpurple.com)

#### Mechanical Seals and Support Systems

AESSEAL® manufactures a full range of cartridge mechanical seals, mixer seals, component seals, API mechanical seals, and engineered seals for nearly all fluid handling applications. AESSEAL® also manufactures the revolutionary **MagTecta™** bearing isolator. This double face seal can be applied to bearing housings, gearboxes, and other lubrication pumps in nearly all types of fluid handling equipment. AESSEAL® delivers exceptionally high quality and service combined with extraordinarily competitive prices. Information on the full product range, brochures, and company history are available at [www.aesseal.com](http://www.aesseal.com)

#### Summit Pump

Since 1982 Summit Pump, Inc has manufactured quality pumps and pump parts for industry worldwide. The company mission statement is more than just a plaque on the wall; it is how we strategically go to market. We will "provide quality pumping products in a timely manner, at a fair market price". Located in Green Bay, Wisconsin we are a privately held and financially strong company. We sell our products worldwide via a dedicated and exclusive distribution *Best Value* in the market.

## Process Plant Equipment Reliability

IndustryUptime Offers the Following Products for Maintenance and Reliability

### **Easy-Laser®**

#### Laser Alignment

IndustryUptime is the manufacturer's representative for Easy-Laser® alignment systems in Northern California. Easy-Laser® alignment systems have been developed with over 20 years of experience in solving measurement and laser alignment problems for industry. This experience has resulted in the Easy-Laser® alignment system, which is easy to learn, easy to use, and easy to own. Call us to find out how robust, intuitive, and affordable a laser alignment system can be..

#### Chemicals for Concrete Construction

IndustryUptime is proud to offer a full line of Unitex® products. From epoxy to cures and seals, Unitex® has an excellent selection of products for a diverse range of applications. Unitex® epoxy products are an excellent choice to cover a wide variety of your needs, including equipment grout needs, equipment foundation crack repair, chemical attack protection, and deep pore equipment grout up to 50 inches deep. With an outstanding selection of epoxies, you will surely find the correct one for the job.

#### Lubricant Containment System

IndustryUptime distributes OIL SAFE lubricant transfer containers in a wide range of colors and sizes. OIL SAFE lubricant transfer containers are innovative, practical, and durable, and have become the global standard of choice for industry. Color coded and fully sealing, OIL SAFE lubricant transfer containers ensure the accurate delivery of clean lubricant from bulk storage to point of use every time.
